How to Order Please be careful to sign your name, post office, county and state on each and every letter sent.

How to Send Money Always remit by Postal Money Order, Express Order, Bank Draft or Registered Letter when possible. Postage stamps accepted when the other modes of remittance are inconvenient, but I will gladly allow you to deduct cost of money order, etc., or give you extra seeds to value expended for sending by this method. Please try to avoid remitting stamps.

Plant Shipments I always recommend having plants sent by Express, when there is an Express Office near, as I can usually send somewhat larger plants, and do not have to wash the soil off the roots (as in the case when sent by Mail.)

Kindly write your list of plants, bulbs and roots all together (not mixed up with the seeds) so as to prevent any mistake upon the part of our clerks in copying the order. I do not ship plants to foreign countries or Canada.

POSTPAID—All Seeds, Plants and Bulbs, sent postpaid, unless otherwise stated in catalog. Safe Arrival Guaranteed.

Haines' Beautiful New Bush Verbena

Each Plant is a most lovely Bouquet in itself

Every year I try to give my friends and customers something really new and novel, and in my New Bush Verbena I believe I have the very best novelty ever offered. This plant instead of spreading over the ground, forms an erect and compact bush about 18 inches high and a foot across, and is covered with true Verbena blossoms, of large size. In my extensive trials nearly 80% of the plants came in true Bush Form.

Special Free Premium

I will send you a packet of my New Bush Verbena Seed FREE of charge provided your order amounts to fifty cents or upwards, if requested on order. I also allow customers their choice of, twenty cents worth extra on each \$1.00 worth of Flower Seeds ordered. For Example: If you remit \$1.00 for Flower Seeds, you may select Flower Seeds to the value of \$1.20—and so on. Please remember that this does not apply on orders for Plants or Bulbs. Your choice of premium must be made when your order is sent in, or premium will not be allowed; neither can separate orders at different times, be added or counted together to secure this extra premium.

HAINES NEW HONOR ASTERS

This Grand Flower can now be had in separate colors as well as in mixture

PURE HONOR-WHITE

The bloom of this flower averages from $3\frac{1}{2}$ to $4\frac{1}{2}$ inches in diameter on long, single stems, about 90 per cent have no laterals at all. It is a branching variety. The blooms are so heavy as to lean toward the ground. There is no other white Aster that will retain its pure white color longer than the Pure Honor. **Pkt. 75 seeds, 15c.**

MERITORIOUS PINK

Meritorious Pink Aster deserves its name, for the beauty of this flower cannot be explained on twice the amount of space on this page. The size is just as you see it on illustration. Color is a beautiful flesh pink on very long, strong and straight stems. It is a branching variety and grows about $2\frac{1}{2}$ feet high. **Pkt. 75 seeds, 15c.**

PURE HONOR-PURPLE

Identical to White Honor except in color, which is darkest purple. This is a wonderful Aster, and blooms through a long season. **Pkt. 75 seeds, 15c.**

MIXED HONOR

Honor Mixture consists of a new strain of Asters of all colors. Colors in this mixture are: Purple, Red, Lavender, Pink, White and Rose. This is a strain of Pure Honor crossed with Crego. It is a branching variety, dwarf in growth and unusually showy. The average blooms run from 4 to $6\frac{1}{2}$ inches in diameter. **Pkt. 75 seeds, 12c.**

HAINES NEW POWDER PUFF ASTER

My Newest Aster; The Finest of All

While not of the Honor family of Asters, this new Rose Pink variety is so much better than any other that it deserves its place on the first page. In size it is two-thirds as large as Honor, and the head is so unusually solid and fine as to never show any center, and so of course very little seed can be found. The color (Rose Pink) lasts well either on the plant, or in water. **Pkt. 50 seeds, 18c.**

HAINES NEW EVERLASTING ASTER

A Beautiful Flower for Winter Bouquets

Something entirely new. The plant is grown the same as any other Aster and blooms from July to September. Pick the flowers when $\frac{3}{4}$ open, and hang them up with the heads down until dried. **Mixed colors—Packet 75 seeds, 10c; 1-8 oz. 39c.**

ASTER—Daybreak

A distinct American Aster, producing plants of stiffly erect, bushy habit, and healthy, vigorous growth, attaining a height of 15 to 18 inches. The flowers are ball-like in form, medium size, have narrow, incurved petals.

This variety is unequaled by any other, the plants seldom carrying less than 50 flowers each. They bloom in mid-season from August to October.

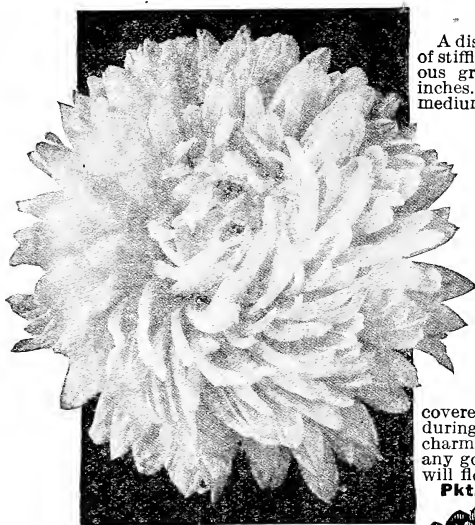

Bluebird, blue. **Lavender**, lavender. **Purity**, snow white. **Rose**, rich rose. **Salmon**, salmon. **Sea Shell**, shell pink. **Mixed colors**.

Any of the above, per pkt., 75 seeds, 7c; 1-8 oz., 31c.

ASTER— Hardy Perennial

(Michaelmas Daisies.) Very beautiful, hardy plants for the border and among shrubbery. They form large, bushy clumps about 2 feet high and are covered with clusters of large, single flowers during the late summer, forming one of the charms of the autumn garden. They thrive in any good garden soil and if sown early, they will flower the first season. **Mixed colors**.

Pkt., 50 seeds, 8c; 1-8 oz., 36c.

Daybreak Aster

New Yellow Aster

ASTER—New Yellow

The form of the double flower is a perfect ball; the quills are close together and of the **brightest sulphur yellow**, not a mere indication of the color, as in all former productions. The border petals are broad and of a lighter tint, seeming to enclose the flower like an old-fashioned bouquet paper. The flowers are borne upon long, erect stems, excellent for cutting. The plants, 12 to 15 inches high, are of compact, bushy growth and most abundant bloomers. **Pkt., 150 seeds, 8c; 1-8 oz., 48c.**

ASTER—Harlequin

A striking Aster of great beauty, produces odd flowers of the most handsome and attractive appearance. Two distinct colors are shown in many flowers. The solid colors are also very beautiful. Height 18 inches.

NEW RAY ASTER

Early Flowering

The flowers are very large, often five inches across, are produced on long, thin, strong stems, very double, with long and narrow petals, giving the blossoms a very unique appearance. **Mixed colors**.

CANARY BIRD FLOWER

CACTUS

One of the Most Interesting Plants that Can Be Grown

The cactus is one of the oddest appearing plants that have ever been cultivated. There are many different shapes and sizes, most of which blossom very easily. Much pleasure can be had from growing cactus from seed. Everyone is surprised at the odd appearance of a Cactus just sprouting; besides this is the only way to secure new and rare varieties, as no two plants are often alike. If you desire a fine collection sow the seed, start in a warm room in moist sand. The plants are easy to grow, as they endure the heat and dryness of the living room very well. **Pkt., 50 seeds, 10c.**

CANDYTUFT

SNOW CREST OR GIANT HYACINTH FLOWERED.

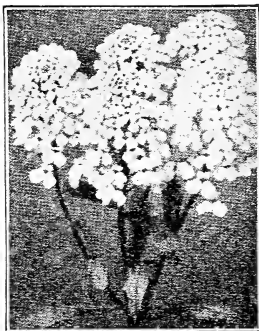

One of the finest varieties in cultivation. The plant is of very branching habit, and when fully grown is covered with enormous spikes of white flowers often 7 inches long. ALL COLORS MIXED. The old Candytuft of years ago came only in white and of a stiff form or shape. As now perfected, there are bright crimson and intermediate shades down to pure white. My mixture will surely please you. **Pkt., 250 seeds, 6c; 1-2 oz., 14c.**

Calendula Glowing Gold

CALENDULA

New Glowing Gold

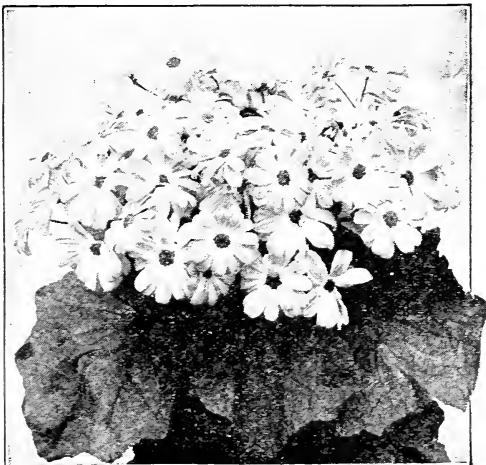

The Calendula is one of the most satisfactory of our summer flowers. It is in bloom almost continuously from the last of June until destroyed by heavy frosts. The double Calendula I have always offered has done nicely wherever grown, but in the New Glowing Gold, you will find the largest, the brightest colored, and the most perfectly double you have ever seen. In the green house last winter were flowers four inches in diameter and so double as not to show a bit of center.

Pkt., 150 seeds, 8c; 1-8 oz., 32c.

CALENDULA

Double Mixed

Flowers extra large, and very double and outer petals are slightly imbricated, while those of the center are incurved like the petals of a paeony. Color bright golden yellow or orange. From seed sown in the open ground it comes into flower early and blooms profusely all summer until late in October. Of the easiest possible culture. **Pkt., 150 seeds, 6c; 1-8 oz., 11c.**

HAINES CINERARIA

One of the Most Popular House Plants

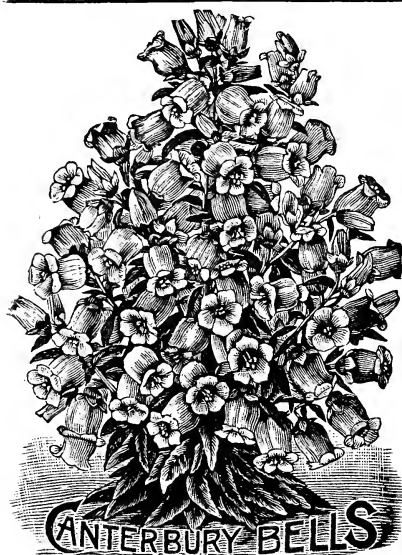

The rich and vivid colors range through all shades of light and bright blue to royal plum-purple, and from shining crimson to deep maroon. Most of the varieties have a well developed white eye, while the flowers are sharply margined with some high contrasting color. Easily raised from seed. The secret of growing well is to grow fast. **Pkt., 100 seeds, 10c.**

CANTERBURY BELLS

Cup and Saucer. The finest of the Canterbury Bells. The bell or trumpet of the flower is quite 3 inches in diameter, presenting the form of a cup and saucer. Colors are blue, rose, lilac and white, and also includes the new striped sorts. The plants are of strong growth, and their beautiful blooms almost completely hide the foliage from view.

Mixed colors. Pkt., 400 seeds, 8c; 1-8 oz., 32c.

Single and Double Mixed. This beautiful old-fashioned popular flower can be grown easily in any ordinary garden, they are free bloomers producing bell-shaped flowers of many different colors very freely throughout the summer. **Pkt., 400 seeds, 6c; 1-8 oz., 16c.**

Pkt., 100 seeds, 15c; 1-8 oz., 35c.

CENTAUREA (Imperialis)

Giant Sweet Sultan

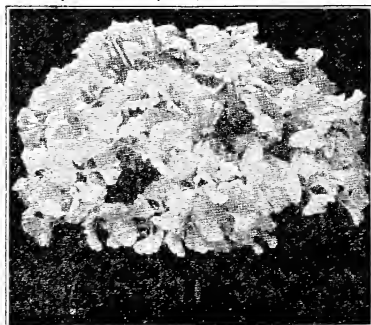

For summer garden flowers the Centaureas are surely among the best. Each plant produces dozens of flowers which are on long wiry stems, making them most valuable for bouquet work, as they last well after being picked. My improved Imperialis or Giant Sweet Sultan is a magnificent strain, with flowers exquisitely fringed, delightfully sweet scented, and at least twice the size of the older varieties. The plants are also earlier flowering.

Pkt., 100 seeds, 7c; 1-8 oz., 16c.

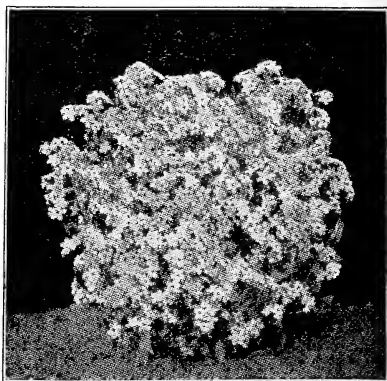

CHINESE LANTERN PLANT

A very showy, hardy, perennial plant; forms dense bushes about 2 feet high; it blooms early and produces freely the first season balloon-like husks, 2 to 3 inches across. These husks are green then change to orange-scarlet; resemble miniature lighted Chinese lanterns. Dried branches covered with these lanterns are used as house decorations.

Pkt., 100 seeds, 10c; 1-8 oz., 29c.

CARDINAL CLIMBER

The Most Beautiful and Brilliant Annual Climber

A strong and rapid grower attaining in good soil and in a sunny situation a height of 30 feet or more; it has beautiful fern-like, lacinated, rich green foliage, and from midsummer till frost is literally covered with clusters of tubular flowers, 1½ inches across, of a dazzling scarlet color.

If started outdoor, seed must not be sown until the weather is settled and warm; otherwise the seed is liable to rot. File or cut a small notch in each seed and soak in lukewarm water over night to hasten germination.

HAINES WONDERFUL CARNATIONS

Gorgeous Colors Large Size
Early and Continuous Bloomers

GIANT FLOWERING MARGUERITE CARNATIONS

One great merit of these Carnations is that they commence to flower in about twelve weeks' time from seed. These flowers are of immense size, measuring 3 inches across and are wonderfully free flowering. **Mixed Colors. Pkt., 100 seeds, 10c; 1-8 oz., 32c.**

COCKSCOMB**Haines Dwarf Mixed**

An odd and picturesque class of plants having colored foliage and in which the innumerable small flowers and seed vessels together with their supports form a very brilliantly colored mass, sometimes gracefully arranged like plumes and sometimes more dense, being corrugated and frilled at the edge like a cock's comb. Didiscus Coeruleus—Lavender Ball

PARROTS FEATHER. It is almost impossible to describe this wonderful Celosia, as it is far superior to the Ostrich Plume, Woolflower and others that we have always thought beautiful. Every branch terminates with lovely plumes as gracefully airy and fluffy as the finest Ostrich Feathers. Scarcely any two are alike; some have these wonderful scarlet feathery plumes while others will have great fluffy balls; still others will have combs. Besides the beautiful scarlet color you will find silvery pink, salmon and even an occasional yellow. **Pkt., 200 seeds, 15c.**

Dahlia—Double Best Mixed

New Colletterte Dahlia

Single Dahlias are wonderfully beautiful, and my Colletterte mixture has colors never seen in a double flower. The plants have artistic single flowers, most of them having an additional row of short petals around the disc, forming a frill or collar, which is often of a different color from the rest of the flower. The flower stems are 2 feet long, and are very graceful, bearing a large daisy-like blossom, which is 3 to 4 inches across. The flower petals have a velvety texture which, added to the rare color and size, make it most desirable. There are many new shades in this rare hybrid mixture, the beautiful crimson in particular. **Pkt., 15 seeds, 10c.**

HAINES BEAUTIFUL PHLOX

DOUBLE FLOWERING

Double Phlox are the most desirable annuals for cut flowers, lasting longer than single ones. I have secured a particularly fine mixture, which has a large percentage of pure white and cream color, perfectly double and semi-double. The white is especially valuable as a cut flower. The semi-double flowers are fully as desirable as the doubles; in fact, many claim they are even prettier. This Phlox is not rivaled among garden flowers in brilliancy of bloom. They are strong growing, healthy plants, with pretty foliage, and belong in every garden, being one of the most brilliant and at the same time one of the earliest and most satisfactory plants, which can be readily grown from seed. The fine blooms, produced in large trusses, furnish a grand display in the garden and are very effective for table decoration. **All colors mixed. Pkt. 150 seeds, 10c; 1-8 oz. 42c.**

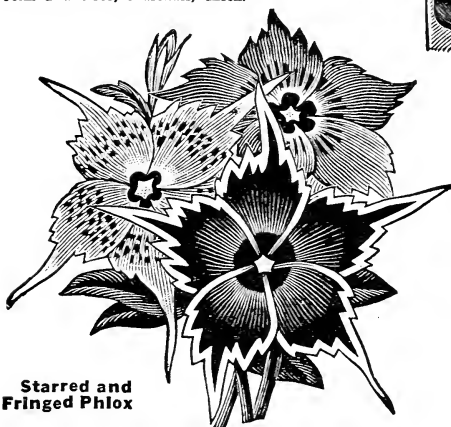

"Enclosed find my order. I have bought seed from you before and always found them wonderful."—Mrs. John Francisco, Marshall, Mich.

HAINES SUPERB NEW VELVET FLOWER

A beautiful flower, particularly rich in its markings.

There are none of our half-hardy annuals of easier cultivation. It stands the heat of summer well and is charming as a house plant for winter and spring blooming. The quaint funnel-shaped flowers somewhat resemble those of the Petunia, and are borne on long stems in great profusion. CHILDREN'S WILD FLOWER GARDEN MIXTURE OVER A HUNDRED VARIETIES OF EASY GROWING PRETTY FLOWERS

With a small expense the Children's Garden can be transformed into a delightfully attractive spot. This mixture is especially prepared from a select list of over one hundred sorts—the colors and varieties being carefully proportioned to produce a constant and varied bloom the whole season. In no other manner can so many different and rare seeds be obtained for such a small cost. It is suitable for any bare or unsightly spots in the yard, to sow along fences, on embankments, etc. All the cultivation necessary is some thinning out where the plants are too crowded and to keep the spot clear of weeds. **Pkt., 500 seeds, 5c; oz., 16c; 1-4 lb., 48c.**

Seeds Imported Direct from Japan

This is a special collection of rare Japanese flower seeds, entirely adapted to our climate, all of which are showy and effective and sure to be a surprise to the grower. It is from Japan that we obtain our handsomest flowers—Chrysanthemums, Irises, Lilies, Paeonies, etc. Seeds of the above as well as Japanese Poppy, Japanese Mirabilis, Japanese Ro-a Multiflora, Japanese Morning Glory, Japanese Kudzu Vine, and over thirty other beautiful varieties. **All Mixed. Pkt., 100 seeds, 10c; oz., 22c.**

WALL FLOWER

SINGLE PARISIAN. Wall flowers are the most delicately fragrant of all garden flowers; their cultivation has been restricted, however, because they did not bloom until a year after the seed was sown. This new annual variety will flower throughout the summer and fall from seed sown the same spring. Everyone should now grow some and enjoy the pleasing fragrance of the many colored flowers. **Pkt., 100 seeds, 6c; 1-8 oz., 17c.**

WILD CUCUMBER VINE

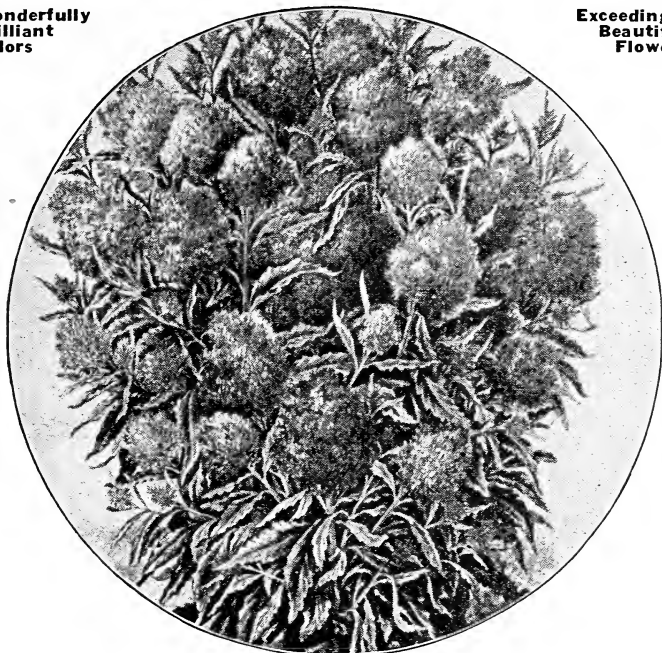

Makes the most massive covering. It is an old friend with people in the country, and it is undoubtedly the best climber for covering verandas, trellises, etc., never suffering from the heat, but retaining its fresh and lively green color, throughout the whole summer, whether hot or cold, wet or dry, never infested with insects, and very profuse in bloom. It will sow itself and come up every year in the same place. **Pkt., 20 seeds 5c; 1-2 oz., 10c.**

HAINES CHINESE WOOL FLOWER

The Most Gorgeous Colorings of Any Flowers

Plants grow 2 to 3 feet high, the bloom starting early with a central globular head which often reaches an immense size. Dozens of branches are thrown out, each bearing a ball of scarlet wool. All these branches support numerous laterals with small heads of bloom mixed with fresh green foliage, so that a plant looks like an immense bouquet splendidly arranged and set in the ground. The flowers last until hit by frost. Flowers when cut in a fresh state and carefully dried retain their shape and brilliant color and are useful for winter decorating like everlastings.

Start seed if convenient in the house about four weeks before time to transplant to the garden, which should be done as soon as danger of frost is past.

CHINESE WOOL FLOWER—CARMINE ROSE

This is the original color, and is still used more than any other. It is a beautiful color—the richest carmine rose and will do well anywhere. **Pkt., 200 seeds, 8c; 1-8 oz. 36c.**

CHINESE WOOL FLOWER—PINK

An exceptionally delicate color, which retains its beauty long after being cut. Lasts well in the field or when dried. **Pkt., 100 seeds, 10c; 1-8 oz., 48c.**

CHINESE WOOL FLOWER—YELLOW

This color contrasts nicely with the above, while a field of the yellow alone is very attractive. Be sure to grow a few this year. **Pkt., 100 seeds, 10c; 1-8 oz., 48c.**

WONDERFUL WEATHER PLANT

The Unique Floral Barometer

This beautiful plant has during past years created a great sensation throughout the world. It is said that the leaves by changing their position, foretell the weather two days in advance, and extensive experiments prove that it is in truth prophetic, while other experiments have not been so successful, and it is yet an open question as to its merits in this respect. It is at least a graceful vine, with lovely foliage and flowers. If the leaves stand upward from the twig, making an angle with each other of 45 degrees, the sky will be cloudless and the weather beautiful in all respects. If they stand out straight, changeable weather is indicated. As the leaves droop below the twig the indications range toward rain, until, when the leaves hang straight downward, water may be expected to fall in torrents. A local storm is indicated by the curling together of the leaves, and a fog by the bending of the twigs. Seeds are of good size and sometimes slow to germinate; should be soaked in lukewarm water before planting. **Pkt., 20 seeds, 10c; 1-4 oz., 34c.**

HAINES WONDERFUL NEW ZINNIAS

Each are Distinct Types and Should be in Every Garden

Zinnias produce a profusion of large double flowers, borne on stiff stems. They are much used for bedding and are suitable for borders and for cutting. There is much satisfaction in a bed of Zinnias with their large flowers of bright colors, and when nearly every other flower has been killed by frost this plant is still in full bloom. Few flowers are more easily grown or bloom more abundantly throughout the season, and the wide range of color is not less remarkable than their unusual depth and richness. Sow the seed in open ground. When the young plants are 1 to 2 inches high, thin to 6 inches apart.

NEW STAR ZINNIA

An Unusual Variety of Single Star Shape Flower

This new and beautiful flower is the only Zinnia ever grown which comes absolutely single and when open shows the true star shape. It is peculiar in its construction; not double, not single—as the word is usually interpreted—nor yet could it be called crested. It must be seen to be appreciated. Flowers are of good size, usually 2 inches in diameter and of good intense colors. Nearly every color known is there from crimson to white, beside color combinations. Petals are rich and velvety, and appear almost artificial in their perfection. Plants are dwarf, and hold the flower stem erect, presenting a beautiful appearance. **Pkt., 100 seeds, 10c; 1-8 oz., 24c.**

NEW VICTORY QUILLED ZINNIA

Attractive Petals so Tightly Curled as to Resemble Quills

It is distinct from all other Zinnias by the shape of its petals which are tubular at the base and expand toward the tip, displaying a rich variety of color. On the reverse side of the petals the color runs into a softer tint, making a beautiful combination. **All colors mixed. Pkt., 50 seeds, 10c; 1-8 oz., 38c.**

NEW MEXICAN ZINNIA

Very Dwarf—Very Small—Very Double

This is the daintiest, prettiest Zinnia ever grown. Only about 12 to 15 inches high, bearing a profusion of small double flowers of unusual colorings. **Pkt., 100 seeds, 8c; 1-8 oz., 21c.**

RED RIDING HOOD ZINNIA

The Most Attractive Blood-Red Zinnia Ever Grown

Of very dwarf and compact growth, 12 to 18 inches high. Covered the entire season with little button-like, very double flowers of brightest scarlet. These flowers are only an inch in diameter. Cannot be excelled as a border plant. **Pkt. 50 seeds, 10c; 1-8 oz., 22c.**

HAINES NEW DAHLIA FLOWERED ZINNIA

Monstrous Flowers; Wonderful Colors; Continuous Bloomers

The plants are of strong, vigorous habit, fully 3 feet high, producing mammoth flowers averaging 6 inches across by 3 to 4 inches deep, similar in shape to the Double Decorative Dahlias. The range in colors not only include the usual shades, but many unusual tones.

HAINES CALIFORNIA GIANTS ZINNIAS

California's Newest Offering is this Wonderful Flower

In this flower we have the finest colors, in a type never before seen. Fully as large as the Dahlia Flowered, they are of the true Zinnia type, flat without the conical center, being nearly a solid face with loosely placed petals. The petals are imbricated and the flower from a small bud to the fully opened blossom present a graceful appearance.

LEMON QUEEN. This is of immense size, color light canary on the upper and cerise on the lower side. It is also unique inasmuch as it carries a pleasant odor. **Pkt., 50 seeds, 10c; 1/8 oz., 39c.**

ORANGE KING. This is a striking shade and can be compared favorably with the color of the Calendula from which it takes its name. **Pkt., 50 seeds, 10c; 1/8 oz., 39c.**

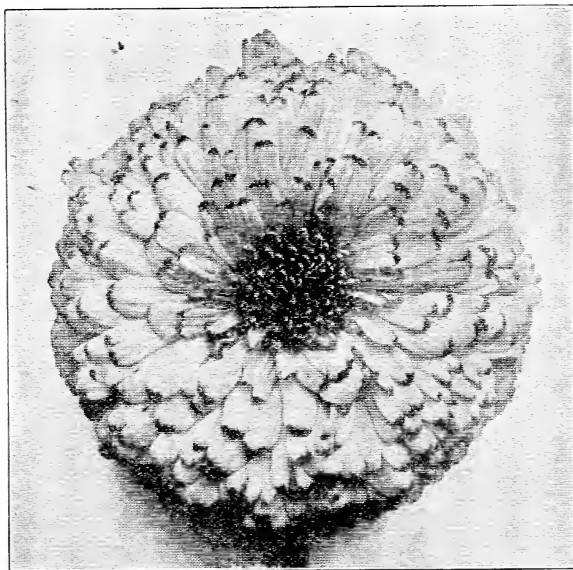

PURITY. Like the Dahlia Flowered Polar Bear, this is a clear white. It has lost the greenish tint that has made white Zinnias unpopular in the past. **Pkt., 50 seeds, 10c; 1/8 oz., 39c.**

ROSE QUEEN. This flower opens first as bright rose with a deep rose red center and gradually develops into a warm deep rose when in full bloom. **Pkt., 50 seeds, 10c; 1/8 oz., 39c.**

MIXED. The above four colors mixed in equal proportion make a splendid show of bright colors. No flowers are more easily grown from seed sown in the open ground and few bloom so continuously throughout the entire summer. Those acquainted only with the old time Zinnias will be surprised at the perfection the newer varieties have attained. **Pkt., 50 seeds, 8c; 1/8 oz., 34c.**

GIANT FLOWERED CANNAS

Always a Gorgeous Mass of Blooms

Golden Eagle Canna

ROSY GEM

This is the Best Pink Canna in Existence

The flowers are of largest size, borne on heavy trusses, and bloom continuously. The color is a glowing shade of pink, much brighter and clearer than any other pink variety. It is a profuse bloomer and one of the best varieties for bedding. The foliage is substantial and strong, of rich green color and free from defects. Height 3½ feet.

Price, each, 45c; doz., \$4.50, postpaid.

PLEASE NOTE

On my named varieties I send out Growing Canna Plants only. My prices are low; in fact, I am only charging what most firms sell dormant roots at—but my splendid started plants are easily worth twice as much.

Canna roots cannot be left in the ground where the winters are cold. When digging them late in the fall it is best to leave a portion of the earth adhering to the roots until they are well ripened. Store them in a fairly warm room or cellar, keeping them in a box filled with dry soil. In planting out the following spring, the large clumps having several stalks or stems should be pulled apart and the divisions treated as separate plants.

It is of true decorative form excepting late in the season, when it often develops flowers of the Paeony type. In color is a luminous salmon-pink shading to a lighter center. **50c each, postpaid.**

BRUTUS

I doubt if there has been a single visitor to my Dahlia fields who has not included this brilliant gorgeous variety in his selection. Its rich color, an intense Oriental-red with garnet suffusion, and its large size, long stiff stems, with an unusual freedom of bloom, make it one of the most desirable garden varieties. **40c each, postpaid.**

One of the most popular pink varieties. Its beautiful soft, glowing pink, together with its perfect shape, stout, stiff stems, and the fact that when cut it retains its freshness for a long time, makes this one of the most valuable for cutting or decorative sorts in the garden. **30c each, postpaid.**

GRANDEUR

As a cut flower this ranks with Celeste; the flowers are of rich lavender pink; while it frequently shows an open center, this does not detract from its beauty. Stems are strong and stiff, and flowers last well either cut or in the garden. **35c each, postpaid.**

GIGANTEA

The rich colored flowers are original in form, consisting of peculiarly twisted and curled petals, of an effective and rich combination of scarlet and gold. **35c each, postpaid.**

COMPETITOR

This is a wonder. It stands up so straight and stiff that many people confuse it with a chrysanthemum. Too much cannot be said in praise of this marvelous hybrid, as it possesses so many good qualities. The stem is very long and rigid; the color is a pleasing shade of orange. It lasts days when cut; the formation of long twisted petals is perfect. Blooms freely all season. **35c each, postpaid.**

NEW CRESTED FERN

I think this the most popular Fern. Rather dwarf in growth, but graceful, very compact, dense and feathery. Each frond or branch has a double row of perfect little fronds set at right angles to the mid rib, and so thick they seem almost crowded. It is a healthy, vigorous grower, constantly unfolding fresh fronds of light green that contrast exquisitely with the deep green of the older fronds. It is somewhat like Roosevelt, but decidedly more fluffy, more delicate and beautiful.

They will bloom and fruit in a two-inch pot; and we have seen a plant in a common window that was but 15 inches high and had 23 oranges on it. With good sunlight they are never out of fruit from one year's end to another, and at least two-thirds of the time are in flower also. The fruit is very sweet and handsome. In beauty, grace and fragrance there is nothing like it. **Nice young thrifty plants, postpaid, 25c each. Extra large plants, by express, \$1.50 each.**

NEW ARABIAN FIG

A dwarf variety of fruit imported from the far East. As a pot plant it is extremely valuable either indoors or outside. It will winter safely in an ordinary cellar, or it can be allowed to harden off with a few frosts in the early fall and then brought indoors for growing during the winter. The fruit is of medium size, very sweet and almost seedless. For the South it is nearer a perpetual bearer than any other variety of Figs, and will produce three crops in a season. The ideal Fig for **pot culture** in the North, and it is one of the rare plants that you should not miss getting. Strong plants which should commence to bear at once. **Strong plants, 45c each; 2 for 85c, postpaid.**

POMEGRANATE

A beautiful, shrubby plant of symmetrical growth, equally good for bedding or pot culture in the house. The blossoms are of a beautiful orange scarlet color. The fruit is large, nearly the size of a walnut, and of a beautiful reddish color; the flavor is delicious, sweet and spicy, and yet rich and delicate. It is very rare and interesting. The plant begins to bloom and bear fruit while quite small.

HAINES FANCY GERANIUMS

Lady Washington Geranium

LADY
WASHINGTON
GERANIUMS OR
PELARGONIUMS

Always in Bloom, Summer, Fall or Winter

A valuable class of house and garden plants related to the Geraniums, resembling them closely in character, habit and treatment. Pelargoniums revel in hot sunlight, withstanding temperature and glare that would shrivel other flowers. All they ask is plenty of water. They do not grow as dense or compact as Geraniums, consequently it is advisable to pinch back the long shoots once or twice prior to their blooming season in April, thus ensuring a nicely rounded, bushy shape. Colors are variegated, ranging from crimson with dark blotch, to pure white spotted, while many of them are heavily ruffled. **30c each; 3 for 85c, postpaid.**

HAINES PANSY GERANIUM

HAINES GLADIOLUS MIXTURES

I can recommend these mixtures with perfect confidence, as I have seen the bulbs in bloom, and know that they contain a wonderful array of color.

Haines Giant Ruffled Gladiolus

HAINES GIANT RUFFLED GLADIOLUS

The Largest Flowers and Most Wonderful Colors Ever Seen

I call especial attention to this new race of extraordinary beautiful Gladiolus, which has been improved year after year by discarding all undesirable flowers and developing new shades and combinations of colors. The flowers are often 5 to 7 inches across, and much resemble orchids of brightest hues and most curious designs, many having beautifully mottled and spotted throats, made up of white, crimson, pink, yellow, lavender, etc. **Finest Mixed, 3 for 21c; doz. 70c; 100 for \$4.50, postpaid.**

HAINES SUPERFINE MIXTURE GLADIOLUS

An Exceptionally Brilliant Display of Colors

This mixture contains, besides the desirable lighter colors, a good many rich blue, scarlet and wine shades, with vivid tints and variations; all splendid flowering bulbs that will make a grand show, and at such a low price that everyone can afford a bed of this most popular bulb. **Price, 3 for 12c; doz. 40c; 100 for \$2.75, postpaid.**

GOLD MEDAL PRIMULINUS HYBRIDS

The original of this type, introduced from South Africa, has been wonderfully improved in the last few years by crossing with choice garden varieties; they are quite distinct from the usual run of Gladiolus, being of more slender growth, the orchid-like, flowers set airily on the slender yet strong spikes. The range of colors is brilliant and beautiful and planted in fair sized groups in the garden make a very showy display, but it is as cut flowers that their grace and wonderful colorings show to best advantage. I grow this magnificent strain for the express purpose of being able to supply many of my customers who want something decidedly better and different than the usual run of mixtures and who do not care for the named sorts. When Gladiolus are grown in mixture they are liable to deteriorate, and finally contain only a few varieties. To avoid this I grow small lots of a large number of exquisite colors, many of them are high-priced sorts, from which these mixtures are made, which insures results which cannot be had in any other way, and if you wish something really extra fine, these are sure to please you. This mixture is certain to produce beautiful flowers mostly in tones running from light yellow to orange, apricot and crimson. **3 for 10c; doz. 30c; 100 for \$2.25, postpaid.**

"This is the second order I sent you this year. I received my first order two weeks ago and am well pleased. Some of the seeds are coming up already."—Mrs. Charles Behrens, Schulenburg, Texas.

HAINES BEAUTIFUL GLADIOLUS

A Select List of the Very Best Sorts

The Gladiolus is the most satisfactory, the most desirable and the most popular of all garden bulbs. Nothing else of the kind costs so little, and nothing else grows and blooms so readily for anybody and everybody, in any soil or climate. It is, in short, the most satisfactory garden flower, thriving and blooming, as it does, with the least care and attention, and makes a display which for brilliancy and beauty of coloring nothing can surpass.

The Gladiolus deserves a place in every garden, large or small, being of easiest possible culture. They make grand beds and the bulbs can be planted any time during Spring and early Summer.

Japanese Iris

These Irises are all sun lovers and delight in a well drained situation. They are all deliciously fragrant, large and handsome, more or less beautifully mottled and veined. Their beauty at first sight rivals that of the Orchid, but, on closer examination, have no hesitation in saying they yield points of interest not to be found in the whole of the Orchid family. Those who have not used these Irises for surrounding lakes and ponds, or cultivated them in the flower borders, shrubberies, woodland walks, and wild gardens, should do so. If planted around ponds or lakes they should be placed well above the water level.

OTHELLO. This is the very darkest colored of all the Iris, and claimed by many to be the finest. The upright or standing petals are purplish lilac, while the drooping petals are deep velvet black, making a very striking flower. **25c each; 3 for 70c, postpaid.**

This is another novelty of unusual merit combining rare grace and beauty with ease of culture and general usefulness. One of the handsomest plants imaginable, a gem of many colors, exceedingly rare and beautiful. Leaves nearly round, and striped freely with silver bands; bloom white, of great beauty and borne in spikes nearly 12 inches high; of easiest growth. Adapted for hanging baskets, vases, etc. Will stand more neglect and mistreatment than any house plant I know of, but will repay any care and attention by giving better growth and brighter colored foliage. This is the most wonderful Geranium ever grown, and all who have seen one in bloom, admit it is the prettiest plant they have ever seen.

Pansy Geranium—Admiration

HAINES ADMIRATION THE NEW PANSY GERANIUM

**Beautifully Colored;
Flowers all Winter**

One of the most beautiful blooming plants; they offer a rich and varied assortment of colors; easily grown. A grand house plant of easiest growth, dwarf habit, and literally covered with flowers all the time, and as it requires little or no attention it is invaluable as a window plant. Considered by many to be the finest pot plants in cultivation. Habit strong, compact and bushy, with the strongest constitution and great wealth of beautiful luxuriant foliage. The plants are perpetual in blooming habit, especially from March to September. The petals beautifully curved and cupped and borne in endless profusion. The colorings and markings of the flowers are most extraordinary—light pink, white, dark purple, black, etc., almost rivaling the Pansy in uniqueness of coloring. It is this combination of coloring which obtained for it the popular name of Pansy Geranium.

Especially adapted for hanging baskets, vases, window boxes, etc., where a delicate and graceful effect is sought. RESURRECTION PLANT

Most Unique Novelty. A Marvel of Plant Life.

This peculiar plant is found among the pines and cedars of Palestine. It is a ball of tightly folded leaflets, dry and apparently dead. But a transformation takes place once it is dropped into a bowl of water, for in a short time there is a great, loose, expanded rosette of fine fern-like leaves, both odd and beautiful. This can be repeated many times, the plant curling tightly together when dry, expanding when soaked. **15c each; 3 for 40c, postpaid.**

Resurrection Plant

SWAN FLOWER

SWAINSONIA

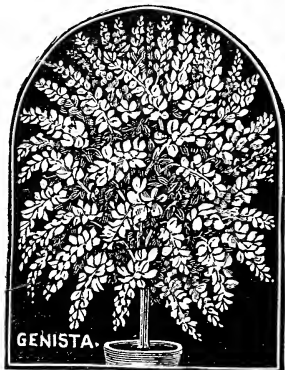

Few plants equal this in beauty and general good qualities. It has a most beautiful fern-like foliage and blooms perpetually every day in the year, its blossoms being the shape and nearly the size of Sweet Peas, and borne in great clusters of twenty to forty. These clusters appear at the axils of the leaves, and a single branch shows many clusters in bloom at all times. The plant is a free and rapid grower, beginning to bloom in three or four weeks from cuttings, and continuing for years. It is easier to grow and manage than a Geranium.

WHITE PEARL. Flowers are pure, snowy white, and borne in pretty sprays all over the plant. **Price 25c, each; 3 for 70c, postpaid.**

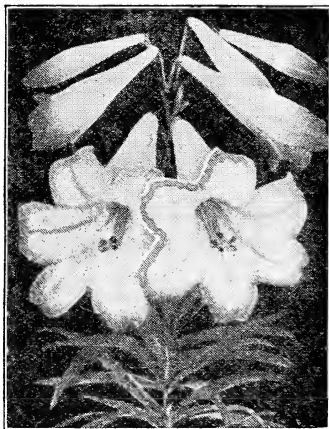

PINK BEAUTY.

This is a bright, rich, rosy red and like the White Pearl it bears its flowers in sprays all over the plant. Very desirable for window culture.

Price, 30c each; 3 for 85c, postpaid.
